**MH CET LAW SYLLABUS 2024**

The State Examination Cell, Maharashtra prescribes the syllabus of MH CET Law for both 3-year LLB and 5-year LLB programmes in its official notification. Candidates are advised to go through the syllabus and important topics to ace the exam. Following is the detailed MH CET law syllabus:

- **Legal aptitude and legal reasoning:** This subject will test a candidate's interest towards the study of law, legal aptitude and problem-solving ability. Questions will be framed with the help of legal prepositions and a set of facts. Candidates will have to assume the truth of the prepositions and answer the questions drawing well-supported conclusions.
- **General knowledge with current affairs:** This will cover topics from history, geography, general science, economics, civics and the current affairs of the past year. The subject is to assess the knowledge of recent happenings and awareness of the world.
- **Logical and analytical reasoning:** The subject is to test the candidate's ability to identify patterns, and logical links and rectify illogical arguments. It will include wide analogies, completing arguments, drawing well-supported conclusions, reasoning by analogy, and applying principles or rules. It includes reasoning deductively and rules or principles that describe the relationship among persons, things or events.

- **English language:** This section will consist of questions on areas like vocabulary (synonyms, antonyms, analogies etc.), proficiency (idioms and phrases, one-word substitution, sentence improvement and rearrangement, fill in the blanks etc.), English usage errors (common errors, spotting errors, inappropriate usage of words, spelling mistakes etc.), English comprehension with minimum two passages followed by five to ten questions that test reading and reasoning abilities.
- **Mathematics aptitude:** This section is to test the numerical ability of candidates. The mathematics questions will be set from the 10th standard level on various topics including profit and loss, speed and distance, time and work, algebra, average, and Venn diagram.
