Since the initiation of its academic sojourn in 2001, NLUJ has produced some of the finest minds across the spectrum of legal practitioners and scholarship for the focus in the institution is not just on impartation of legal knowledge, but on creation of a collaborative, distinctive legal education ethos. The University's wholehearted endeavors have been primarily focused on: consolidation of academic learning; inculcation of the highest ethical standards in our talented students; honouring the canonical legacy of legal systems while contributing pro actively towards its timely metamorphosis; driving academic innovation and transforming the sphere of education for a prismatic future.

The University premises its entire academic and research endeavor around its purposeful motto 'Knowledge is Empowerment'. The cornerstones that provide the foundation of our educational mission are the life of the mind, participatory learning, interdisciplinary inquiry, and an education for future leaders. Located on an aesthetically congenial residential campus in the Blue City of India, the University offers a rigorous and interdisciplinary professional education that blends the study of law with humanities, social sciences, and management. Students, faculty, and staff form a small, tightly knit community devoted to the life of the intellectual inquiry and rigour. The teaching pedagogy is innovative and prolegomenous aiming to create scholars who can carve their own paths and build upon the instruction offered to them through a host of resources and platforms.

Our teaching pedagogy intermixes convention with innovation- with each teacher having the liberty to chart the academic trajectory of the paper administered and training scholars to analyse and rationalize, to critique and reform, to examine the micro as well as macro aspects of a problem, to argue fluidly and pen fluently, using cutting edge technology and access to some of the most fecund global legal databases. As a concomitant and outcome of the diverse learning exposure given to them, our alumni today constitute the crème de la crème of the Bar and the Bench, hold positions of eminence in national and international law firms and massive global conglomerates, vocalize people's rights as zealous advocates while sensitizing the population by guaranteeing pro bono legal assistance, passionately advocate for environmental protection and against carbon footprints while discussing the nitty-gritty of IP regimes and international trade agreements with a consistent concern throughout for the future welfare of the globe.

A major mission at the University has been to develop and disseminate knowledge through scholarly research that critically analyzes the development of law and related disciplines. The institution's research mission is broad- encompassing a broad range of thought from the empirical to the theoretical; from pure legal topics to far-reaching interdisciplinary inquiry; from local, state, and national to international and comparative law. Synchronously, the faculty members are concerned with the interaction between law and society in a myriad of

ways, and draw on economics, cultural studies, public policy, feminist theory, history, political science, management, and other disciplines. The interdisciplinary faculty pursues innovative work that expands the understanding of the law and influences the global community.
